Surgery of the Laryngotracheal Junction in children and adults

February 25 – 27, 2015

Lectures, Live Surgery,
Anatomical Dissections

Dear colleagues,

the laryngotracheal junction is a delicate and unique segment offering some specific characteristics. Being the only part of the airway with a closed cartilaginous circumference this area is site of predilection for different lesions like scarring, chronic and acute inflammation as well as Wegener's disease in the larynx or the still poorly understood idiopathic progressive subglottic stenosis. As a consequence this location with its obviously different pathophysiology is highly demanding and challenging. Therefore, successful treatment requires sophisticated and multi-disciplinary concepts in diagnostics as well as therapy.

Feel cordially invited to collect hands-on experience and to discuss the complex topic of modern airway surgery with internationally leading experts in the field. The combination of wet-lab exercises on fresh-frozen specimen, cutting edge lectures and live surgery will deepen your understanding and improve your decision making in these comparatively rare, but delicate and complex patients.

The Wolf Training Academy offers excellent facilities for our wet-lab dissections. Don't miss the opportunity to visit the production process of a famous instrument and endoscope factory on site.

Stuttgart is a vibrant, modern city embedded in a historical rich and beautiful landscape. Being home to many major companies like Daimler Benz, Porsche or Bosch it is the economical powerhouse of the country. Accessibility by air-plane, train and car is excellent; accommodation needs to be planned well ahead.

I am looking forward to a few days of intensive work and collegial enthusiasm.

Prof. Christian Sittel

Wednesday, February 25th, 2015

WET-LAB Exercise

(limited participants, two per specimen)

- 09.00** Meeting at ENT Department Klinikum Stuttgart, Kriegsbergstrasse 60, 70174 Stuttgart
Registration
Welcome address Prof. Sittel
Transfer to the institute of Richard Wolf company, Knittlingen
- 10.00** Welcome address Mr. Halder,
Richard Wolf medical instruments
Master dissection with video transmission
(Sittel/Kölmel)
(Laterofixation Lichtenberger's, Aryteidectomy, Thyreoplasty, Aryrotation, Nn. Recurrentes, Cricothyroidapproximation)
- 12.30** Lunch
- 13.30** Master dissection with video transmission
(Sittel/Kölmel)
(Supralaryngeal Release, Mediastinal Release, Tracheal-Segment-Resection, Cricotracheal Resection CTR, Laryngeal Split, Laryngotracheal Reconstruction LTR)
- 16.00** Visit the company
- 17.00** Transfer to Stuttgart
- 18.00** Adjourn

**Prima Vista
Richard Wolf Akademie**
Richard Wolf GmbH
Pforzheimer Straße 32
75438 Knittlingen
Phone +49 7043 35-4137

Thursday, February 26th, 2015

Lectures

- 09.00** Registration & refreshments
- 10.00** Introduction: airway stenosis in adults **(Sittel)**
- 10.20** Interventional pulmology – adult **(Herth)**
- 10.40** Glottic stenosis – vocal cord immobility/pacing **(Müller)**
- 11.10** Break
- 11.40** Glottic stenosis – scars and endoscopic treatments **(Friedrich)**
- 12.10** Airway reconstruction in malignant disease **(Peretti)**
- 12.30** Complications and their management **(Kölmel)**
- 13.00** Lunch
- 14.00** Introduction: airway stenosis in children **(Sittel)**
- 14.10** Interventional pulmology – pediatric **(Nicolai)**
- 14.30** Balloon dilation **(Albert)**
- 14.50** Reconstructive surgery in pediatric stenosis **(Sittel)**
- 15.20** Break
- 15.50** Stenting in reconstructive surgery **(Monnier)**
- 16.20** Supraglottoplasty for laryngomalazia **(Koitschev)**
- 16.50** Anaesthesia and ICU-management **(Grabner/Nirmaier)**
- 17.10** Discussion
- 17.30** End
- 19.00** Congress dinner
Restaurant Bonatz (Main Station Tower)

Friday, February 27th, 2015

LIVE-SURGERY

Moderation: Vollrath / Koitschev

- 08.30** Live surgery from 2 operating rooms **(Sittel/Kölmel)**
- 13.00** Discussion
- 13.30** Break
- 14.30** Case discussion/round table
- 16.00** Closing address
